### Wood Veneer

We continue our boutique work meticulously with unlimited color and coating options preferred especially in the interior design of vehicles such as luxury cars, vip vehicles, yachts, and helicopters. We supply the coatings obtained from very special trees and tree roots, wherever they are in the world and respond to the demands of the consumer.

### Carbon Coating

In the vehicle; cockpit parts, special steering applications, vip vehicle design applications. Apart from the vehicle, we do boutique works especially on parts such as spoilers, mirrors and diffusers. In addition, the production processes are completely different, our mass production started with vehicle-specific mirror covers. Our carbon products were offered to the Turkish market at the same time as the world market, and their demand increased in a short time with their quality and reasonable price compared to imported products.

### Leather Covering

We continue our boutique work meticulously with unlimited color and coating options preferred especially in the interior design of vehicles such as luxury cars, vip vehicles, yachts, and helicopters. We offer solutions for coating steering wheel, gear gaiter, handbrake, armrest and similar products using 1st class genuine leather.
